### **Our COMPANY**

**SNP Group** is a world-leading provider of data transformation software and professional services for managing complex SAP transformations. SNP data transformation professionals work with SAP and SAP tier 1 global system integration partners to modernise, merge, harmonise or split SAP systems and data to help large enterprises realise their goals for their SAP landscape.

SNP has over 1,500 SAP data transformation professionals worldwide at 35 locations in 20 countries. The company is headquartered in Heidelberg, Germany and is listed on the Frankfurt Stock Exchange. SNP Group is closely affiliated with SAP given that SNP is solely focused on transformation of SAP workload.

SNP JAPAC team is primarily located in Singapore, Malaysia, China, Japan, Australia and now Thailand. SNP data transformation professionals are recognised as most highly skilled professionals in SAP data transformation and complex SAP landscape transformation.

### **What we're looking for**

## SAP MM Consultant

We are seeking a skilled SAP MM (Materials Management) Consultant to join our team. The ideal candidate will have a strong background in the SAP MM module and experience in data migration, configuration, implementation, and support of SAP solutions in a procurement and materials management environment. As an SAP MM Consultant, you will be responsible for ensuring that the SAP MM module is aligned with business requirements and optimized for supply chain and procurement processes.

### Responsibilities

- SAP MM Data Migration: Well versed with in-depth knowledge on the MM related tables and data migration tools & concepts.
- SAP MM Module Configuration: Configure and implement SAP Materials Management (MM) solutions based on business requirements, ensuring that the system runs efficiently and effectively supports procurement and inventory management processes.
- Implementation Support: Act as a lead or support consultant during the SAP MM implementation and rollout projects. Work with cross-functional teams to understand business processes and provide solutions within SAP MM.
- Troubleshooting and Support: Provide post-implementation support and resolve issues related to the SAP MM module. Troubleshoot technical and functional issues and work on system enhancements to meet changing business needs.
- Integration with Other Modules: Ensure seamless integration of the SAP MM module with other SAP modules, such as SAP SD (Sales and Distribution), SAP WM (Warehouse Management), SAP PP (Production Planning), and SAP FI/CO (Finance and Controlling).
- Customization: Customize SAP MM to meet specific business needs related to material master data, procurement processes, stock management, and vendor relationships.
- Documentation: Prepare and maintain detailed functional specifications, process documentation, and user manuals for SAP MM implementations and upgrades.
- System Testing: Conduct unit testing, integration testing, and UAT (User Acceptance Testing) to validate the configured SAP MM solutions.
- Continuous Improvement: Collaborate with business users to identify opportunities for process improvements within the SAP MM module. Stay current on SAP best practices and new features related to the MM module.

### Qualifications

We are looking for a highly qualified candidate who meets the following criteria:

- Bachelor's degree in supply chain management, Business Administration, Information Technology, or related field. An SAP certification in MM or a related area is preferred.
- Minimum of 5 years of experience working as an SAP MM consultant or in a similar role.
- Proven experience in SAP MM module data migration, configuration, implementation, and support.
- Strong knowledge of procurement processes, inventory management, purchase order processing, and vendor management within SAP.
- Experience working in cross-functional teams and collaborating with other SAP consultants.
- Expertise in SAP MM module configuration, including material master, procurement, inventory management, and purchasing processes.

**DATA. TRANSFORMATION. EXPERIENCE.**

- Strong analytical and problem-solving skills, with the ability to troubleshoot SAP MM issues and provide effective solutions.
- Excellent verbal and written communication skills, with the ability to interact effectively with both technical and business stakeholders.
- Ability to manage multiple tasks, deadlines, and priorities in a fast-paced environment. Experience in managing small SAP projects or workstreams.
- Strong interpersonal skills with the ability to work effectively in a team environment.
- Experience with SAP S/4HANA.
- Data migration
- Knowledge of SAP WM (Warehouse Management) or SAP SD (Sales and Distribution) modules.
- Familiarity with global SAP Implementations, rollouts and multi-country/multi-currency environments.

**What's in it for you**

- Competitive salary and company bonus scheme
- Mobile Allowance
- 20 days annual leave
- 5 days family day leave
- Hybrid working model where you enjoy the flexibility of working both remotely and in the office.

**"Be More" @ SNP: Unlock Your Full Potential**

Are you **courageous** enough to lead change, **driven** to achieve excellence, and inspired by **innovation**? Join us and be part of a team that transforms bold ideas into **successful** outcomes.

Send us your CV with your expected commencement date now!
