What we're looking for

SNP DATA. TRANSFORMATION. EXPERIENCE.

SAP PP/PM Consultant

Role Overview:

We are seeking a highly skilled **SAP PP (Production Planning) and PM (Plant Maintenance) Consultant** to join our team and play a key role in our **SAP S/4HANA transformation journey**. The ideal candidate will have a strong background in one or both modules, with proven experience in **data migration**, **configuration**, **implementation**, and **support**. This role will focus on aligning SAP PP and PM solutions with business requirements, optimizing production and maintenance processes, and engaging with stakeholders to ensure successful outcomes during and after the **migration from SAP ECC to SAP S/4HANA**.

Responsibilities

- **SAP PM/PP Data Migration:** Well versed with in-depth knowledge of the PM/PP related tables and data migration tools & concepts.
- **SAP PM/PP Module Configuration:** Configure and implement SAP PM/PP solutions based on business requirements, ensuring that the system runs efficiently and effectively supports procurement and inventory management processes.
- **SAP PP/PM Data Migration**: Lead and support data migration activities from **SAP ECC to SAP S/4HANA**, with deep knowledge of PP/PM-related tables, data structures, and tools such as **SAP Migration Cockpit** and **LTMC**.
- **Module Configuration**: Configure and implement SAP PP and PM modules in the **S/4HANA environment**, ensuring efficient support for production planning, plant maintenance, and asset management processes.
- **Implementation Support**: Act as a lead or support consultant during SAP S/4HANA implementation and rollout projects, collaborating with cross-functional teams to understand business processes and deliver tailored solutions.
- **Troubleshooting and Support**: Provide post-implementation support, resolve functional and technical issues, and implement enhancements to meet evolving business needs.
- **Cross-Module Integration**: Ensure seamless integration of SAP PP/PM with other modules such as **SAP MM, SD, WM, and FI/CO**, leveraging S/4HANA's simplified data model and real-time capabilities.
- **Customer Engagement**: Work closely with business users to gather requirements, provide expert guidance, and ensure solutions align with operational goals.
- **Stakeholder Management**: Engage with internal and external stakeholders, including operations, maintenance, IT leadership, and implementation partners, to ensure alignment and successful delivery.
- **Documentation**: Prepare and maintain comprehensive documentation including functional specifications, process flows, and user manuals tailored to S/4HANA.
- **System Testing**: Conduct unit testing, integration testing, and user acceptance testing (UAT) to validate SAP PP/PM configurations and migrated data.
- **Continuous Improvement**: Identify opportunities for data optimization and innovation in the context of SAP S/4HANA.

Qualifications

- Bachelor's degree in Engineering, Business Administration, Information Technology, or a related field. SAP certification in PP or PM is preferred.
- Minimum of 6 years of experience as an SAP PP/PM Consultant, including at least **three full-cycle SAP S/4HANA migrations or implementations**.
- Proven expertise in SAP PP/PM configuration, data migration, and support.
- Strong understanding of production planning, plant maintenance, and asset lifecycle management processes.
- Experience working in cross-functional teams and collaborating with other SAP consultants.
- Excellent analytical and problem-solving skills with the ability to troubleshoot and resolve SAP PP/PM issues effectively.
- Strong communication and interpersonal skills, with the ability to engage both technical and business stakeholders.
- Experience managing small SAP projects or workstreams, with the ability to prioritize and meet deadlines in a fast-paced environment.
